

SINGLETERARY LAWSUIT WIN!

In May, attorney Wyatt Golding filed a suit on behalf of Pilchuck Audubon Society (PAS), Skykomish Valley Environmental and Economic Alliance (SVENA), and Friends of Wild Sky (FOWS) against the WA Department of Natural Resources (DNR), the DNR Board, and Commissioner of Public Lands Hilary Franz regarding the Singletary Timber Sale directly east of Wallace Falls State Park. PAS members may recall that we have been fighting this sale for several years, and earlier this year the Snohomish County Council voted to reconvey a small portion (approximately 21 acres) of the sale back to the County in order to protect a new hiking trail.

The DNR chose not to perform a new State Environmental Policy Act (SEPA) analysis, in spite of the new sale boundaries and the fact that the sale now borders County parkland. Furthermore, the DNR designated the trees on the now *County*-administered land as “leave trees;” uncut trees required by Forest Practices regulations.

On 11 August, Snohomish County Superior Court Judge Millie Judge agreed that these actions were clearly illegal, and remanded the DNR to perform a new threshold determination considering the new parkland, without using its trees as mitigation.

This is wonderful news, and will probably prevent Singletary from being logged—or roads or bridges built to access it—this year. We do not yet know whether the DNR or the American Forest Resource Council or Sierra Pacific Industries (the company that bought the sale), who had intervened in the suit, will appeal the decision.

SEPTEMBER PROGRAM MEETING

Note Location Change

Stephen Shunk

**HOW WOODPECKERS CAN SAVE THE WORLD
(or at least your local forest)**

Friday, September 15, 2017

7:30 p.m.

Doors open at 7:00 p.m.

**Edmonds Plaza Room, Frances Anderson Center
(above the Sno-Isle Edmonds Library)
700 Main Street, Edmonds ([map](#))**

Stephen Shunk will be the keynote speaker at the 2017 Puget Sound Bird Festival in Edmonds.

Woodpeckers represent one of the most specialized bird families in the world, and North America’s wood-peckers play a critical role in our continent’s forests and woodlands. In fact, nowhere else on Earth are wood-peckers such important contributors to forest ecology. Join Oregon naturalist and North American woodpecker specialist, Steve Shunk, for an exciting journey into the lives and times of our own Puget Sound woodpeckers.

Steve will take you inside woodpecker anatomy and translate anatomical adaptation into the fascinating behaviors we love to watch among our favorite woodland carpenters. He will explain how these amazing birds can slam their heads against trees without injury; he will share the broad variability among our local woodpecker species; and, he will describe how several species can co-exist in the same stand of forest without competition. You will hear stories of fly-catching woodpeckers, ant-eating woodpeckers, and the heavy-duty excavators. Steve will show photographs from his extensive travels and explain the keystone ecological roles played by our local woodpeckers. He will send you home with a mission. Prepare to be entertained, educated, and inspired to be ambassadors for woodpecker and forest conservation. ✧

BIRDING CLASSES

Winter/Spring 2017 Classes
Taught by Candy Brown

BACKYARD BIRDS

Enhance your understanding of common birds, and improve your ability to identify them. Includes basics of anatomy, migration, reproduction, foods, and foraging. We will also discuss the best ways to attract birds to your yard. Designed for adult beginning birders, but children ages 12+ are welcome.

Tuesday, September 12, Edmonds
at Frances Anderson Center

6:30-8:00 p.m.

\$17 for residents, \$19 for non-residents

To register, call 425-771-0230

Short-eared Owl /
Rex Guichard

OWLS AND RAPTORS

Class participants will learn more about the most common owls, hawks, and eagles that live here at different times of the year—or all year long. We will also discuss the habitats in which to find them.

Tuesday, October 17, Edmonds
at Frances Anderson Center

6:30-8:00 p.m.

\$17 for residents, \$19 for non-residents

To register, call 425-771-0230 ✧

Autumn Seed Sale

October 18

About Pilchuck Audubon Society

The Pilchuck Audubon Profile, official newsletter of Pilchuck Audubon Society, is published monthly.

Pilchuck Audubon Society (PAS) is a grass-roots environmental organization with members throughout Snohomish County and Camano Island, Washington.

Our mission is to conserve and restore natural ecosystems, focusing on birds and other wildlife, for the benefit of the earth's biological diversity.

Through education, advocacy, and community activism, PAS is committed to bringing people closer to wildlife in order to build a deeper understanding of the powerful links between healthy ecosystems and human beings, and to encourage the involvement of our members in efforts

to protect the habitat this wildlife depends upon for survival.

We serve as a local chapter of the National Audubon Society. PAS is a 501(c)(3) tax-exempt, non-profit organization incorporated in the state of Washington.

Newsletter Submissions

Submit articles to newsletter@pilchuckaudubon.org or mail to 1429 Avenue D, PMB 198, Snohomish, WA 98290. Submissions must be received by the 21st of the month preceding publication. We reserve the right to edit.

PUGET SOUND BIRD FEST

September 15-17, 2017

Pilchuck Audubon Society's September Program Meeting will be held from 7:30 to 9:00 p.m. (doors open at 7:00 p.m.) on Friday, September 15, at the Frances Anderson Center, 700 Main Street in Edmonds, which is also the kickoff for the three-day Annual Puget Sound Bird Fest, September 15-17. The Keynote Speaker for the Friday program meeting and Bird Fest event is Stephen Shunk, renowned expert on North American woodpeckers.

The 13th Annual Bird Fest celebrates birds and nature with a wide array of speakers, guided walks and field trips, Puget Sound boat tours, exhibits, and educational activities for children and adults.

Stephen Shunk will take the audience inside woodpecker anatomy to explain the fascinating behaviors, tell stories of fly-catching woodpeckers and ant-eating woodpeckers, and show beautiful photographs from his extensive travels. His *Peterson Reference Guide to Woodpeckers of North America* was released in May 2016. He will have books to sell, and he will sign books after the meeting.

For more information and details on Bird Fest, visit www.pugetsoundbirdfest.org. If you are interested in volunteering, contact Jennifer Leach at 425-771-0227 or Jennifer.leach@edmondswa.gov.

SMART GROWTH REPORT

by Kristin Kelly

Executive Director, Smart Growth

As I write this month's Smart Growth Report, it is about 20 minutes until the solar eclipse is completed over the Pacific Northwest. While this awesome celestial phenomena is a rare event in the United States, solar eclipses actually happen almost yearly in other parts of our planet. For me, this fact reminds me how big our planet is, and how closely we are all connected to Earth and the importance of doing whatever we can to protect it.

Planet Earth is in peril. With more than 7 billion people in the world, it is going to take all of us to change to deal with the impacts of climate change. The saying "Think Globally and Act Locally" is and will remain relevant.

Which brings me to Snohomish County and our future here. Our Snohomish County Council can do more to make changes to deal with climate change and to deal with its impacts that are too late to change.

As Smart Growth Executive Director, I work to inform and hopefully influence our County Council to make wise land use decisions, especially now as our economy has recovered and growth and development are growing rapidly.

Since June, the County Council has listened to many people on both sides of whether or not they should expand the urban growth boundary of the Southwest Urban Growth Area along 43rd Street, that would add hundreds and hundreds of rural land acreage and allow for more urban density. They continued their decision in August, and now it has been extended to September 20. It would not surprise me if they extend that decision again until after the election on November 7, as this is a very important and contentious decision. While the homeowners along 43rd don't like the increased traffic, or the fact that 43rd will be expanded into a larger arterial, they want to be inside the UGA so they can get the maximum amount of money possible when they sell their property to big developers. The fact is, if they are unhappy living in their homes, they can sell them now at the current zoning and still make a pretty good profit.

And the fact is, expansion of any of our county's UGA is not legal under the Growth Management Act, the Puget Sound Regional Council's policies, or the County's own policies. And, on top of that, expansion of UGAs will put more cars on our roads, add more greenhouse gas emissions, and is not the solution to our population growth.

Pilchuck Audubon Society believes firmly that UGA expansions should happen only, if at all, at the eight-year comprehensive plan updates, when all our county impacts can be assessed in a comprehensive way, taking into account all environmental, traffic, and economic impacts, and not pit one neighborhood over the other. ✧

BIRD SEED SALE

October 18

Twice yearly, Pilchuck Audubon sells bird seed in bulk as a fundraiser. The 2017 autumn sale will be Wednesday, October 18, between 4:00 p.m. and 6:30 p.m. Seed pick-up will be in Everett; there will be volunteers to load the seed into your vehicle.

Types of seed available include sunflower seed (shelled or unshelled), peanuts (shelled or unshelled), cracked corn, millet, safflower, mealworms, niger thistle, suet, and mixes. The most popular seeds are sunflower and the mixes; the mixes will lure many species to your feeders.

If you are new to the seed sale and would like to see a price list, send an email to Carolyn Lacy, newsletter@pilchuckaudubon.org.

Payment is by credit card, check, or cash. If paying with a credit card, you'll need to pay 48 hours before seed pick-up. If paying with cash or check, pay at the time of picking up your seed.

Price List will be available in mid-September.
Feed the birds and support PAS!!

TRIP CALENDAR

Check our website at www.pilchuckaudubon.org
for the latest information

Tuesday, September 5

Camano Island

Meet at 7:30 AM at Quilceda Village Walmart lot west of Marysville (I-5 Exit 200). Park away from the store, to the east, near Quilceda Blvd and next to I-5. Scenic locations we may bird are Triangle Cove, Eide Road, English Boom, Iverson Spit, and Cama Beach State Park. Pack a lunch. Trip Leader: Virginia Clark, [360-435-3750](tel:360-435-3750)

Tuesday, September 12

La Conner, Swinomish Reservation, and Kiket Island

Meet at 7:30 AM at Quilceda Village Walmart lot west of Marysville (I-5 Exit 200). Park away from the store, to the east, near Quilceda Blvd and next to I-5. Expect waterfowl, shorebirds, gulls, terns, and tweety birds. Pack a lunch.

Trip Leader: Virginia Clark, [360-435-3750](tel:360-435-3750)

Tuesday, September 19

Sequim

Meet at 7:10 AM at the Edmonds Wade James Theater parking lot. The theater's address is 950 Main St., Edmonds, 98020, just east of 9th Ave. on the south side of Main St. We'll take the ferry to Kingston and bird the voyage, the docks, through Port Gamble, and across the floating bridge. We will bird Sequim Bay, Dungeness Recreational Area, and whatever else we fancy. Lots of waterfowl, shorebirds, and surprises. Bring a lunch. Trip Leader:

Virginia Clark, [360-435-3750](tel:360-435-3750)

Tuesday, September 26

South Whidbey Island

Meet at 7:15 AM at the Eastmont Park & Ride, I-5 Exit 189, east side, aiming for the 8:00 AM ferry from Mukilteo. Lots of waterfowl and shorebirds. Crocket Lake is exciting, and the scenery is gorgeous. Pack a lunch. Trip Leaders:

Wilma Bayes, [360-629-2028](tel:360-629-2028)

Virginia Clark, [360-435-3750](tel:360-435-3750)

Saturday, October 14

Parks in Eastern Edmonds

Meet at 7:30 AM at the entrance to the Mountlake Terrace Freeway Station's parking lot (near I-5 Exit 178, northbound). We'll carpool to several parks along the eastern edge of Edmonds: Mathay-Ballinger, Sierra, Seaview, Southwest County, and Haines Wharf. We'll do a moderate amount of walking as we look for birds at these different sites.

Trip Leader: Douglas Resnick, [425-776-4811](tel:425-776-4811) ✧

CHELAN RIDGE HAWK MIGRATION FESTIVAL

Memorial Park, Pateros

September 16, 8 AM to 3 PM

Join the Chelan and Entiat Ranger districts, North Central Washington Audubon Society, and HawkWatch International this fall for the eighth annual Chelan Ridge Hawk Migration Festival! This family event combines free activities in Pateros Memorial Park with trips to Chelan Ridge to learn about and celebrate raptors as they journey to winter territories.

Prior to the festival, on Friday night, September 15, we will offer a workshop with an expert about raptor migration and field identification to prepare you for your trip up to the ridge. On Saturday, free shuttles to Chelan Ridge will leave from Memorial Park throughout the day, lasting four hours. Participants will get to see migrating raptors, and they will get up-close views of banded raptors being released. At the park there will be vendors, live raptors, interpretive booths, and projects for kids. A field trip to Wells Wildlife Refuge will leave at 8:00 and return about noon.

More information and on-line registration for the shuttles, field trip, and workshop will be available September 1 at www.ncwaudubon.org.

If you have any questions, please contact Richard Scranton at rscran4350@yahoo.com. ✧

Singletary Lawsuit Win

Continued from Page 1

Many thanks to all who have contacted their elected representatives to help us with this fight! We are extremely gratified by this win, but our work is not finished. The remaining sale footprint will obliterate other trails planned for the area, and would not give a sufficient buffer for the one already built. We will continue to work with the County Council and other agencies to permanently protect this area. We also will continue to work with representatives of the DNR to facilitate a more environmentally sound and recreationally friendly timber management program for all of the State-managed lands between Wallace Falls State Park, Morning Star Natural Resource Conservation Area, and the Wild Sky Wilderness. ✧

CITIZEN SCIENTISTS WANTED

The RAND Corporation, a non-profit research organization focused on developing solutions to public policy challenges, is studying a variety of issues associated with citizen science. In pursuing this line of research, our team is hoping to speak to a few citizen scientists to better understand how people enter the field of citizen science, what keeps people participating, and any ideas citizen scientists may have about how to improve the field overall.

If you are a citizen scientist who would be amenable to participate in an interview (45-60 minutes) with our research team, please let us know by contacting Amanda Edelman (aedelman@rand.org). Please note that for this round of interviews we have a preference for individuals participating in citizen science projects based in the United States. ✧

ANNUAL MUSHROOM HIKE WITH GREG HOVANDER

Saturday, November 4

Call or email Kathy to reserve your place on this hike, limited to 12 participants. Please include your phone number in case of last-minute changes.

We will hike through old growth forest on the Deception Falls trail off SR 2. Meet at the Sultan Park and Ride at 9:00 a.m. This will be an all-day hike with expert mycologist and pharmacist Greg Hovander. Greg is a walking encyclopedia of mycological knowledge, from identification of hundreds of fungal species, to medicinal qualities, to nutrition and cooking methods. We'll proceed at a leisurely pace at first, locating and learning about all types of fungi.

Trip leader: Kathy Johnson, [360-659-7252](tel:360-659-7252) or forest@pilchuckaudubon.org ✧

UPCOMING EVENTS, CLASSES, and FESTIVALS farther afield

Compiled by Rick Brauer

North Cascades Institute Classes

Dates below

Various Locations

Sep 16-17: Hawkwatching at Chelan Ridge Kent Woodruff

Sep 22-24: Wildlife Tracking Marcus Reynerson

Information for these classes and more at: <https://ncascades.org/signup/programs/classes>

Oregon Shorebird Festival

September 1-3

Charleston, OR

The Cape Arago Audubon Society invites you to their big event for birding and habitat tours. These include a pelagic trip more than 30 miles offshore, paddling trips by kayak and canoe, and land-based field trips throughout Bandon, Coos Bay, and Charleston. Other activities include art and photography displays and classes. Speakers include Noah Strycker, sharing stories of his world-wide Big Year record of over 6,000 species.

<http://tourism.bandon.com/events/details/oregon-shorebird-festival-466>

Swift Night Out

September 9

Monroe, WA

One of Pilchuck Audubon's own! <http://monroeswifts.org/>

Puget Sound Bird Fest

September 15-17

Edmonds, WA

Another one of Pilchuck Audubon's own! <http://www.pugetsoundbirdfest.org/>

After you've enjoyed our local festivals, go a little farther from home

Swift Watch

September 1-30

Portland, OR

If you loved that flock of Vaux's Swifts at Swift's Night Out in Monroe, you might catch the very same birds on the other side of the Columbia later in the month.

Monterey Bay Birding Festival

September 23

Watsonville, CA

If you loved all those fabulous fall migrants at the Puget Sound Bird Fest in Edmonds, you might catch the very same birds in California a week later. <http://www.montereybaybirding.org/>

Fairchild Tropical Botanic Garden Bird Festival

October 7-8

Coral Gables, FL

Are you sick of left-coast birds? You can pretty much be certain that you won't see any birds from Western Washington at this Miami-area garden's autumn bird soiree. Different plants, too! <http://www.fairchildgarden.org/bird-festival> ✧

BACKYARD BIRDING HIGHLIGHTS

by Mara Price, Sightings Coordinator

June 26, 2017 to July 25, 2017

Last month I gave Debra Davis credit for only 11 species from her June 25 report when she actually listed 44 species, but there were no number counts. In addition to the bird species I reported, she also listed a Barn Swallow in the barn, a Golden-crowned Sparrow, a Pileated Woodpecker at the feeder, an Evening Grosbeak, a Trumpeter Swan flying over in Kirkland, a Green-winged Teal in Snohomish, a Western Tanager, a Varied Thrush, a Red-breasted Sapsucker, and a Great-horned Owl.

Carole and Larry's report from Lake Bosworth listed 4 Anna's Hummingbird, 7 Barn Swallow, a Belted Kingfisher, 16 Canada Goose on the lake, 3 Cedar Waxwing, 2 Common Loon on the lake, 1 Common Raven, 2 Mallard Duck and 2 Muscovy Duck on the lake, 3 Red-breasted Sapsucker, 7 Purple Finch, 2 Red-breasted Nuthatch, 30 Red-winged Blackbird flying over, 4 Rufous Hummingbird, 8 Spotted Towhee, 3 Swainson's Thrush, 2 Tree Swallow, a Turkey Vulture over the road, and 2 Western Tanager, for a total species count of 39.

Reporting from Snohomish, Debbie Dern listed a Downy Woodpecker, 2 Rufous Hummingbird, 6 European Starling in her yard, a Pileated Woodpecker, 5 American Goldfinch, 3 Red-winged Blackbird, 2 Black-headed Grosbeak, 2 Spotted Towhee, a White-crowned Sparrow, 4 Purple Finch, 2 Fox Sparrow and 2 Red-breasted Nuthatch, for a total species count of 17.

Hilkka Egtvedt still has 2 California Quail in her backyard in Mukilteo; she is the only one who reports California Quail. I used to have a couple in my yard, but they disappeared a few years ago. Hilkka's report also listed a Cooper's Hawk, a Band-tailed Pigeon, 2 Anna's Hummingbird, a Pileated Woodpecker, 4 Black-capped Chickadee, 3 Chestnut-backed Chickadee, 2 Red-breasted Nuthatch, 4 Black-headed Grosbeak, 5 House Finch, and 2 American Goldfinch, for a total species count of 21.

Kriss Erickson's report from Everett listed 6 American Robin, 3 Bewick's Wren, 3 Song Sparrow, 15 Western Gull flying overhead, 33 European Starling, 3 Northern Flicker, 8 Chestnut-backed Chickadee, 16 Black-capped Chickadee, 6 Mourning Dove, 2 Varied Thrush, 2 Yellow Warbler, 2 Lincoln's Sparrow, and 3 Anna's Hummingbird, for a total species count of 23.

Reporting from Stanwood, Mary Sinker listed 12 American Goldfinch, 9 American Robin, 5 Anna's Hummingbird, 2 Barn Swallow, a Barred Owl hunting near the creek, 10 Black-headed Grosbeak, 3 Cedar Waxwing, 5 Downy Woodpecker, a Great Blue Heron at the creek, 17 Mourning Dove, 2 Olive-sided Flycatcher, 2 Pileated Woodpecker, a Red-breasted Sapsucker, a Sharp-shinned Hawk, 6 Spotted Towhee, 12 Steller's Jay, 2 Veery, 2 Western Tanager, 2 Wilson's Warbler, and 2 Yellow-rumped Warbler, for a total species count of 41.

My report from Marysville includes 2 American Goldfinch, 5 American Crow, 4 Black-capped Chickadee, 7 Black-headed Grosbeak, 3 House Finch, 8 Mourning Dove, 30+ Rock Dove on the wires, 4 Steller's Jay, heard a Barred Owl in the woods, a Great Blue Heron flying over the fields, a Turkey Vulture flying over, a Red-tailed Hawk, and 2 Evening Grosbeak, for a total species count of 27.

If you are interested in joining our team of bird reporters, please email me at pricemara1@gmail.com or leave a message on my cell phone at (425) 750-8125. ✧

Swifts Night Out 2017

Come join us on Saturday, September 9, 2017 for SWIFTS NIGHT OUT. Festivities will begin at 4:00 p.m. as we celebrate the Vaux's Swift migration and watch the wee birds come to roost in the chimney at Wagner Center. This **FREE** family event is held on the grounds of Wagner Center with educational videos and talks given inside the newly remodeled Wagner Performing Arts Center located at 639 Main Street in Monroe, Washington.

Free parking is available at the Monroe City Hall, Frank Wagner Elementary with ADA parking available across from the Center at Windermere Real Estate.

Plan on feasting on our **SPAGHETTI FEED DINNER**, a treat the entire family will enjoy at just \$6.50 each. Hotdogs, dessert, beverages, and other snacks will also be available.

Swifts Night Out 2016 | Jim Beneteau

Don't miss the children's games, wildlife education booths, swift headbands, and the kick-off of the Monroe Downtown Merchants Association to 'Swift Quest' program. This unique tie-in with our beloved Vaux's Swifts unites art, history, and fun in the heart of downtown Monroe.

And, of course, not to be missed will be beautiful aerial acrobatics of the swifts as they descend into the chimney for a night of rest before heading south to wintering grounds.
